FREEZA (2ND FORM)

"In this form, I won't be as gentle as I was before."

This is his appearance following his first transformation. His body has grown larger, and the horns on his head have become longer and sharper. Unlike his first form, which suggested sophistication and cool thinking, violence and savagery take the forefront, and even his speech takes a more violent turn. His power and speed are dramatically increased over his previous form, and his battle power climbs to over 1,000,000. With an overwhelming force that frightens even Vegeta, he leaves Kuririn on the verge of death in the space of an instant.

FREEZA (3RD FORM)

"Shall we begin the battle once again?"

After completing his second transformation, the back of Freeza's head is drawn out behind him, and his face and body shape take on a more monstrous appearance. At first glance, his second transformation appears stronger, but just as Vegeta declares him to be "completely different," he achieves a tremendous boost in power. Piccolo, who fought an evenly matched battle against him in his second form, can no longer touch him, and from the fact that the Kikoha blasts launched from his fingers leave Piccolo incapacitated, the degree of his power becomes evident.

EPISODE 84 — ***He Powers Up With Each Transformation! Freeza's Bottomless Power!!***

As a metamorphic alien, Freeza is able to transform into four different appearances, from his first form to his final one. When compared with Zarbon, who is also a metamorphic alien, possessing only two forms, it is apparent how much more prominent Freeza's abilities are. Naturally, his battle power and appearance change with each transformation. In his first form, he is at 530,000, while in his second form, that rises to over a million, and in his final form, he tops out at a hundred million. He doesn't call himself the strongest in the universe for nothing!

Coming Up!!

FREEZA (FINAL FORM)

"I made you a promise, didn't I? To show you a terror even greater than Hell's."

Having finished his final transformation, this is Freeza's true form. His body is smaller, the horns on his head are gone, and going just by his outward appearance, he seems to have lost some of his force. However, contrary to his appearance, he is still endowed with his cool and collected, yet brutal personality and overwhelming power, which instills despair in everyone that faces him. His forte technique, that of launching Kikoha blasts from his fingertips, is so fast that not even Gohan or Piccolo is able to see it.

Son Gohan is a great lover of animals, whose dream is to be a scholar in the future, and is always furthering his education. We've included here the "Animal Report" that he wrote on the animals he has encountered in his adventures around the world!!

Plesiosaur

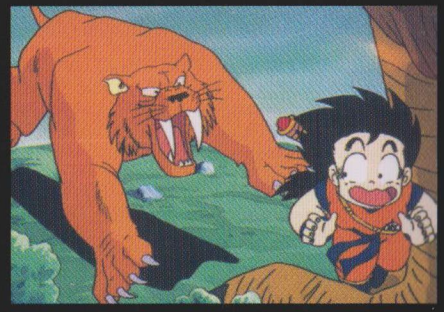

Habitat: training grounds
Size: extra-large
Temperament: mild
Appearance: episode 10

I came across this dinosaur in a cave. A herbivore, it is very gentle. It had suffered a deep wound, so I treated it with a hand-made remedy that I learned from Father.

Sabretiger

Habitat: training grounds
Size: medium
Temperament: lonesome
Appearance: episode 9, others

It has long, sharp fangs and runs fast. I was afraid of it at first, but once we started chasing each other around, we became friends. It even helped me out when I was building my raft.

Frog

Habitat: Planet Namek
Size: small
Temperament: as it pleases
Appearance: episode 74, others

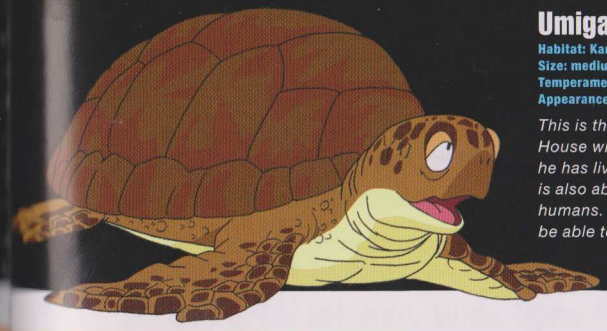

It resembles the frogs on Earth, but it has two antennae growing out of its head, just like Piccolo-san. It was on the receiving end of a "Body Change" from Ginyu, so now, it and Ginyu have switched bodies.

Dinosaur

Habitat: training grounds
Size: extra-large
Temperament: ferocious
Appearance: episode 7, others

This is the giant carnivorous dinosaur that menaced the wasteland where Piccolo-san left me. It attacked me several times, as well, but before long, I stopped being afraid of it, and instead started to treat myself by eating the meat from its tail.

Umigame

Habitat: Kame House
Size: medium
Temperament: laid-back
Appearance: episode 2, others

This is the turtle that lives at the Kame House with the Turtle Hermit. Apparently, he has lived for over a thousand years! He is also able to speak in the language of humans. I wonder if I live long enough, will I be able to speak in animal languages?
